

International CFA - Chartered Financial Analyst (Level II)

Preparatory for CFA Level II Exam: June '11

The objective of this training program is to prepare candidates for CFA® Level 2 June 2010 examination. Participants would be given extensive training in the subjects of higher relevance and difficulty level using a combination of spreadsheet illustrations (showing implementation and practical application of various models and concepts), presentations and classroom examinations. Even though our immediate target would be to help the participants to clear the CFA® Level 2 exam, we believe that our teaching methodology would prepare our participants to practically apply theoretical concepts and be a better fit in the finance industry.

Historical Pass Rate:

The worldwide pass rates for Level II is around 47%.
