

Stock Market Expert

Investors have to empower themselves with knowledge about the markets so they may be able to take the right decisions & not lose money by blindly investing based on advice provided by so called market pundits. Stock Market Expert (SME) is the course to provide that knowledge.

SME is also useful for freshers who would like to get introduced to the basic market terminologies and concepts. It provides knowledge fortification & exposure to practical application for graduating students, serving as an effective resume builder and ideal preparation for future career.

Stock Market Expert is a perfectly designed course to create a powerful knowledge bank on various tools and techniques required to understand the functioning of capital markets in depth. The course undertakes to provide the most relevant and updated knowledge on equity, commodities and currency markets in India.
