

Stock Markets for Women Entrepreneurs

"When the guys are losing, they cry and whine more than you've ever seen in your life. If something goes wrong, women just take it. They never cry." - "Options Queen" Jeanette Schwarz Young, Trader, New York Boards of Trade (<http://blog.optnqueen.com/about>)

Women Entrepreneurship Program is a specialized program designed for women who wish to work from home. This program aims at creating an opportunity for housewives to generate wealth from home. Women are generally well-known for their inherent skill of money management. They always show their expertise while managing their domestic accounts. After marriage due to commitment towards the family, they are not able to deploy their intrinsic capability. This program is designed so they are able to utilize their skills in the financial market for converting their

- idle time to productive time
- idle resource to proactive resource
- idle capital to income
